

From setup to running on autopilot in one day.

Connect your accounts, customize your preferences, and let Solo Spider automate your marketing workflows from one unified platform.

Connect your channels

Link your website, social accounts, and CMS. Solo Spider pulls in your brand voice, content & audience automatically.

Set your goals

Tell Solo Spider what you want — more traffic, stronger social, better rankings, or AI visibility. It builds your strategy.

Review and approve

It generates blogs, social posts, and SEO fixes. You review, tweak, and approve — or set it to fully auto.

Watch it run

Content goes live. Posts publish. SEO improves. You get weekly reports on exactly what's working.
